December 2, 2021

Dear Angie Stastook:

Decision: Deferral of Abandonment Program, Fort Liard Area (OA-2021-001-PPR)

The Office of the Regulator of Oil and Gas Operations (OROGO) received a notice from the Office of the Chief Public Health Officer (CPHO) recommending the postponement of work associated with Prairie Provident Resources' (Prairie Provident) abandonment program for this upcoming 2021/22 field season. Subsequently, during discussions with Prairie Provident and the Office of the CPHO, it was decided that the Mount Coty 2K-02 well (WID 1993) can be abandoned in the 2021/2022 season

In light of this information, OROGO is requiring all oil and gas operators to increase inspection frequency on their non-compliant wells and consider how postponed abandonment operations can be conducted in the 2022/23 winter operating season in a manner that minimizes risks of COVID-19 transmission to local communities, contractors and other personnel. OROGO requests that Prairie Provident develop and provide the following:

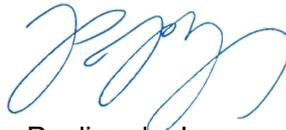

1. A monitoring plan that identifies more frequent testing and inspection of non-compliant suspended wells. An additional inspection must be added for each non-compliant suspended well in addition to the requirements of Section 5D of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*. The monitoring plan must be submitted to OROGO at oro.go@gov.nt.ca by January 11, 2022.
2. An execution plan, excluding the Mount Coty 2K-02 well, to conduct field operations in 2022/23 that meets all requirements of the CPHO's Public Health Order – COVID-19 Directed at Mineral and Petroleum Industry (https://www.gov.nt.ca/covid-19/sites/covid/files/resources/pho_-_mpr_en_2.pdf). The execution plan must be submitted to OROGO at oro.go@gov.nt.ca, with a copy to ProtectNWT at protectnwt@gov.nt.ca, by August 31, 2022.
