Re: Decision: Application for a Variation (OA-2021-002-SUN-variation #1)

Dear Pauline de Jong:

In response to the OROGO letter dated June 1, 2022 to Suncor's request to extend the deadline for the completion of additional terms #5 and #8 please find attached updated operator contact list and consolidated Safety, Environmental Protection and Contingency Plans. These plans include the respective concordance tables, updated information and organizational chart with key personnel names and contact information. Suncor will also complete a review and update of the organizational chart and contact information as required prior to execution and will provide to OROGO.

Suncor remains committed to working with OROGO and completing the abandonment of these wells as required.

If you have any further questions or concerns, please do not hesitate to contact me.

Warm regards,
