Good afternoon,

Please accept this email as the monitoring plan submission requested in OROGO's letter dated December 2, 2021 (Deferral of Abandonment Program, Jean Marie River Area (OA-2021-004-IMP)).

Imperial will complete two inspections, each visit will include a site inspection and bubble test. The first one is planned for August/September (depending on site/weather conditions) in conjunction with the flux meter installation to determine pre-abandonment soil gas readings and the second visit will occur prior to lease preparation in December. The flux meter system will be removed for the well abandonment and re-installed after abandonment to obtain post-abandonment readings.

Please let me know if you have any questions or concerns.

Thanks,

**Esther Choi**, E.I.T. (she/her)
