Attention: Pauline De Jong, Regulator
Dear Pauline

Subject: Aurora College Training Well G-04, OA Application2022-001-AC

I wish to apologize for the delay in answering your correspondence and OROGO IR#1. Unfortunately I am fighting a serious medical problem and have not been able to devote much time to the Aurora College OA Application or to other CPE projects.

Ron McCosh, another CPE principal is now assisting with the Aurora College well abandonment and we are making good progress in getting Ron up to speed. We suggest that the following schedule be approved by OROGO in order to get the OA Application process for OA 2022-001-AC back on track.

1. CPE will submit a revised OA Application for the Aurora College Training Well G-04 well abandonment by February 3, 2023. This revised application will include all responses and clarifications required by OROGO IR #1.
2. CPE will submit the ACW Application for this well abandonment by February 10, 2023.
3. CPE will respond to any further OA IR's in a timely manner as requested by OROGO.

We appreciate all of your assistance in helping Aurora College and CPE with the information that allowed us to ensure that we meet all of the requirements for the proposed routine surface well abandonment program for the Aurora College Training Well G-04.

With Regards

Lorne Hammer, President
